I am a senior year undergraduate student in computational mathematics at University of Science and Technology of China, as a student from School of the Gifted Young. I was majored in pure mathematics, especially focus on geometry and at that time, I was a student in the Hua-loo Keng Talent program at USTC. I was fortunated to work closely with Michael Kazhdan from JHU in the summer of 2022, and might being an internship student at MSRA in my senior year.

My wechat ID is **qizhang\_001**, feel free to reach out!!!

## News

☑ New days, new awesome website!!!

## Research

I am totally interested in computer vision 🧐 and graphics 🍵.

## Experiences

**University of Science and Technology of China, Hefei, China.**  
2019.09 - 2023.06 (expected).

School of the Gifted Young.

**B.S. in Mathematics.**

## Miscellaneous

I am hacking space cowboy 🤖 of open source culture. I use archlinux in my free time with some fancy features: i3wm, ranger, neovim and so on.

Away from all those, I enjoy short marathon and also a super fan of pure music: Hans Zimmer, Joe Haisashi, the Piano Guys and so on.
